

DM™ 603

Floor-standing loudspeaker system

Product Summary

- The DM 603 is a free standing monitor with a 180mm (7-inch) Kevlar® bass/mid-range driver. The DM 603 will appeal to those who love a rich, rounded bass sound. This is achieved by the inclusion of a passive radiator and bass aligned reflex port. It is also possible to 'tune' the bass with the acoustic foam plugs supplied. By selectively damping the reflex port, you can achieve three variations of bass alignment.
- The DM 603 is ideally suited as front channel speakers in a Home Cinema system.

Technical highlights

Kevlar®: B&W developed and patented the method of using Kevlar® for loudspeaker cones to reduce unwanted standing waves. DuPont originally created Kevlar® for use in bulletproof vests.

Description	2 way combination vented-box system 1x 25mm metal dome - high frequency	Power handling	25W –120W into 8 ohms on unclipped programme
Drive units	1x 180mm Kevlar® - bass/midrange 1x 180mm passive radiator	Dimensions	Height: 850mm Width: 236mm Depth: 306mm
Frequency response	47Hz – 20kHz ± 3dB on reference axis	Finishes	Black Ash vinyl, Cherrywood vinyl Grille: Black Cloth
Sensitivity	90dB spl(2.83V 1m)		
Nominal impedance	8 ohms (minimum 4.3 ohms)
