

# LCR60 S3

**B&W**  
Bowers & Wilkins

The LCR (Left, Centre, Right) models in the range, like all speakers intended for centre channel use, are magnetically shielded to avoid television picture distortion. This feature is essential should you need to mount either the left or right front speaker close to the television too. Typically, horizontal orientation would be used in centre speaker applications, where the low profile sits well on top of or directly beneath a television, or if you need to suspend the speaker tilted down from the ceiling. The twin 130mm (5.5-in) drivers allow the LCR60 S3 to match the output capability of the smaller models in the range.

*Description:* 2.5-way vented-box centre system

*Frequency range(-6dB):* 55Hz and 42kHz

*Power handling:* 120W into 8 $\Omega$

*Sensitivity:* 88dB spl (2.83V, 1m)

*Impedance:* 8 $\Omega$  (minimum 3.0 $\Omega$ )

*Dimensions:* H 175mm W 460mm D 305mm  
H 6.9" W 18.1" D 12.2"

*Weight:* 9 kg / 19.8 lbs.
