

# CASA™ Keypad

## Product Summary

- You do not need to worry about a bewildering array of knobs and buttons. The elegantly discreet keypad control all audio and timing functions with a one-touch operation. The keypad also has an infrared eye.
- The 'Casa' button on the keypad controls timer, clock and alarm functions. An Infrared eye is built into the keypad enabling controllability from the remote unit.
- One-touch operation – choose which sound source you want to listen to. Instant feedback assures you of every function change.

The Casa system was awarded
