

# 804S

**B&W**  
Bowers & Wilkins

The 804S is a more compact version of the 803S. Exactly the same midrange and tweeter configuration is used, but bass is supplied by two smaller 6.5" diameter Rohacell® cone drivers. This model is ideal for the medium size listening room – elegant and unobtrusive.

Silver coating the magnet pole in the tweeter helps extend its high-end response. The midrange driver utilizes a powerful Neodymium-Iron-Boron magnet, which ensures incredibly low levels of harmonic distortion necessary to reproduce programme with full clarity to high output levels.

Our crossovers use only air-cored inductors, again for lowest distortion, and capacitors developed and optimized in conjunction with one of the world's foremost manufacturers. And all contacts are gold plated, to ensure long-term freedom from corrosion.

*Description:* 3-way vented-box system

*Frequency Range:* -6dB at 30Hz and 50kHz

*Frequency Response:* 38Hz – 20kHz ±2dB on reference axis

*Sensitivity:* 90dB spl (2.83V, 1m)

*Nominal Impedance:* 8Ω (minimum 3.0Ω)

*Dimensions:* H 1020mm W 238mm D 351mm  
H 40.2" W 9.4" D 13.8"  
(not including feet)

*Weight:* 28 kg / 62 lbs.

*Finishes:* Cherrywood, Rosenut, Black Ash
