

P6

Floor-standing loudspeaker system

Product Summary

- The essential difference between the P6 and the other speakers in this series is a B&W trademark - the free-mounted tweeter - "tweeter on top".
- Combining a 165mm dia Cobex® bass drive unit with the Kevlar® bass/mid-range drive unit and a larger cabinet volume, the P6 delivers high power handling and efficiency with superb bass extension.

Technical highlights

Kevlar®: B&W developed and patented the method of using Kevlar® for loudspeaker cones to reduce unwanted standing waves. DuPont originally created Kevlar® for use in bulletproof vests.

- Tweeter on top: B&W's Tweeter on top technology ensures that the sound remains focused and time-sensitive and that the stereo-image is presented with unparalleled three dimensional accuracy.

Description	3-way 4th order vented box system	Power Handling	30W – 150W into 8 ohms on unclipped programme
Drive Units	1 x 25mm metal dome - high 1 x 165mm Kevlar® - bass/midrange 1 x 165mm Cobex® - bass	Dimensions	Height: 1000mm Width: 200mm Depth: 316mm
Frequency Response	40Hz – 20Hz ±2dB on reference axis	Finish	Black Ash, Rosenuit, Cherrywood Grille: Black Cloth
Sensitivity	90dB spl(2.83V 1m)		
Nominal Impedance	8 ohms (minimum 3.5 ohms)
