

The larger of the two floor-standers in the Series and a full 3-way design, the 703's full 3-way configuration allows the use of a dedicated Fixed Suspension Transducer (FST driver) for the finest in midrange delivery. The combination of its woven Kevlar® cone and mechanically matched outer suspension enables this driver to portray the finest nuances in the signal. Twin bass drivers, their stiff paper/Kevlar® cones further strengthened by our unique girder-like mushroom construction, work in parallel in a Flowport tuned cavity to handle all the bass frequencies. The tube-loaded tweeter is freely mounted on top of the cabinet to give a sense of airiness and reduce the listeners' awareness of the speakers.

<i>Description:</i>	3-way vented-box system	<i>Impedance:</i>	8Ω (minimum 3.0Ω)
<i>Frequency range (-6dB):</i>	30Hz and 50kHz	<i>Dimensions:</i>	H 1007mm W 232mm D 357mm H 39.7" W 9.1" D 14.1"
<i>Power handling:</i>	200W into 8Ω	<i>Weight:</i>	27 kg / 60 lbs.
<i>Sensitivity:</i>	90dB spl (2.83V, 1m)
