

CDM 7

Floor-standing loudspeaker system

Product Summary

- The CDM 7 is an imposing floorstander which not only makes the best of the real wood veneer finish, but also means extra volume. The 165mm Kevlar® mid/bass combined with the additional 165mm Cobex® low-frequency driver, delivers a bass response as tactile as the beautifully crafted cabinets themselves.

Technical highlights

- B&W's Tweeter on top technology ensures that the sound remains focused and time-sensitive and that the stereo image is presented with unparalleled three dimensional accuracy.

Kevlar®: B&W developed and patented the method of using Kevlar® for loudspeaker cones to reduce unwanted standing waves. DuPont originally created Kevlar® for use in bulletproof vests.

Description	3-way 4th-order vented-box system	Power Handling	30 · 150W into 8 ohms on unclipped programme
Drive Units	1 x 25mm (1in) alloy dome · high frequency 1 x 165mm (6.5in) kevlar® · bass/midrange 1 x 165mm (6.5in) Cobex bass	Dimensions	Height: 950mm Width: 220mm Depth: 290mm
Frequency Response	40Hz · 20kHz ± 3dB on reference axis	Net Weight	18.5kg
Sensitivity	90dB spl (2.83V 1m)	Finish	Cabinet: Real Wood Veneers, Black Ash, Cherry, Red Ash Grille: Black Cloth
Nominal Impedance	8 ohms (minimum 4 ohms)
