REMOTE CONTROL

TO PRESERVE BATTERY LIFE THE BATTERIES ARE PACKED SEPARATELY FROM THE REMOTE CONTROL AND NEED TO BE INSERTED BEFORE THE REMOTE CONTROL WILL OPERATE.

Remove the two screws from the base of the remote control and remove the cover.

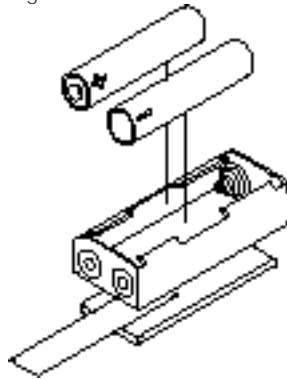

Slide out the battery carrier with the two wires attached.

Insert the batteries (two AAA types) with the correct (+) and (-) polarity as shown in the carrier (figure1)

Slide the battery carrier back into the remote control taking care not to pinch the wires.

Refit the cover and the two screws.

Figure1
