

Signature 7

Wallmount speaker

Product Summary

- With the B&W Signature 7, wall mount monitors come of age, attaining true audiophile standards. The Signature 7 incorporates key technology pioneered in B&W's groundbreaking Signature 30 audiophile loudspeaker.
- From the low-resonance Kevlar® cone bass/mid-range driver and special metal dome tweeter, to the revolutionary rigid thermoset baffle, the Signature 7 is at the cutting edge of loudspeaker development. B&W's attention to detail also brings you a high frequency contour control for precise sound tailoring and our APOC® protection circuitry to prevent damage from over-driven amplifiers.

Technical highlights

Kevlar®: B&W developed and patented the method of using Kevlar® for loudspeaker cones to reduce unwanted standing waves. DuPont originally created Kevlar® for use in bulletproof vests.

| | | | |
|---------------------------|---|-------------------|--|
| Drive units | 1 x 25mm (1-inch) metal dome - tweeter 1 x 180mm (7-inch) Kevlar® cone - woofer | Dimensions | Height: 373mm Width: 285mm Min depth req: 102mm (4in) from wall surface. |
| Frequency response | 40Hz - 20kHz ± 3dB on reference axis | Finishes | Semi-matt white suitable for customising or pre-painting |
| Sensitivity | 88dB spl (2.83V 1m) | | |
| Nominal impedance | 8 ohms (minimum 4 ohms) | | |
| Power handling | 10W - 150W into 8 ohms on unclipped programme | | |
