

## See nothing, hear everything

The CWM7.4 features a 150mm (6in) bass/mid-range driver set in a die-cast chassis and a Nautilus™ tube loaded 25mm (1in) soft dome tweeter. With a critically formed baffle constructed from glass reinforced ABS, the speaker features a scallop under the tweeter which creates the perfect roll off for high frequencies resulting in a more accurate reproduction of sound. Utilising the best quality components, such as having Mundorf components on the crossover, combined with proven technologies such as Flowport™ ensures that this speaker provides impressive sound reproduction.
