Experience home cinema as it was meant to be heard with B&W’s Custom Theatre 700 Series. Our new range of dedicated custom theatre loudspeakers brings B&W 700 Series technology and craftsmanship to your home cinema set-up at a cost-effective mid-range price.

The three models in the range integrate seamlessly with home theatre cabinetry and can each be positioned as left, centre, right or surround speakers. Each speaker uses high sensitivity Nautilus™ tube-loaded tweeters designed specifically for the reproduction of movie soundtracks along with first-order tweeter crossover filters for minimal signal degradation. Combined with our unique Aramid Fibre drive units, the result is extraordinarily life-like, dynamic movie sound quality.

The entry-level speaker in the range, the CT7.5 LCRS delivers outstanding spaciousness, imaging and definition through its single 7 inch Aramid Fibre CT700 Series bass/midrange drive unit.
